

Prof. PhD. Eng. Athanasios Leandros Maglaras (IEEE M'06). He received the Electrical and Mechanical Engineering degree in 1971 and his Ph.D. degree in 2010 from the National Technical University of Athens, in Greece. He was a Professor of Technological Education Institute (T.E.I.) of Thessaly (ex. Larissa) in Greece from 1980 to 2014. The main research interests are High Voltages (DC, AC and Impulse), Air gaps, Electromagnetic Field Analysis, Simulations and CAD/CAE, Electric Circuits and Thermodynamics.

He was the head of the Electrical Engineering Department of TEI of Thessaly for 7 years, director of the Power Sector for 10 years, and the supervisor of the Computer and High Voltages laboratories of the Department for 25 years.

He was coordinator of 8 European Educational and Research Programmes and scientific partner of 6 others European Programs from 1986 to 2014. He was an author of more than 35 papers in international Conferences and journals, as well as of 5 books for the students of T.E.I., with more than 240 citations. All papers are presented in Research Gate, LinkedIn and Google Scholar.

He was member of the Organizing and Scientific Committees, as well as Session Chairman of many International Conferences.

He was a part time professor of the T.E.I. of Thessaloniki from 1975 to 1976. He was author of courses notes, concerning electrical subjects.

He was a Teacher in schools of Public Secondary Technical Education in Greece from 1977 to 1980 and Director of a High School and of a Centre of Professional and Technical Education from 1978-1980. He also was a teacher in many Educational and Additional Training Programs for engineers and unemployed. He was author of many lesson notes, concerning mainly Electrical and Mechanical Engineering subjects.

He was Chief Engineer of the Engineering Department of the Hellenic Steel Company in Thessaloniki from 1973 to 1976.

He was a supervising engineer in Development Program of Thessaly Underground Water, of the Ministry of Agriculture in Greece, from 1976 to 1977.
